MEMORANDUM TO : Chief, Procurement Division, OL

DATE: 26 November 1956

ATTN : [] Administration Branch

FROM : Chief, Engineering Division, OC

DOO	49	REV DATE	10/25	BY	018313
ORIG COMP	023	OPI	56	TYPE	02
ORIG CLASS	5	PAGES	5	REV CLASS	C
JUST	22	NEXT REV	2010	AUTH:	HR 13

SUBJECT: Residual Property []

50X1

1. This letter is in reply to your memorandum dated 19 October 1956 requesting recommendations for the disposition of several items brought to your attention by the contractor in his letter dated 25 September 1956. These recommendations assume that your property control records verify the correctness of the statements made by the contractor.

2. The following recommendations are offered:

50X1

- a. Transfer the items listed on Attachment 1 from []
- b. Transfer the items listed on Attachment 2 from []
Note that a Dumont Camera #321 has not appeared on any inventory list. It is requested that accountability be verified and the item transferred.
- c. Return to stock the items listed on Attachment 3. Note that a Viking transmitter has not appeared on any inventory list. It is requested that accountability be verified and the item returned to stock.
- d. Transfer to [] one Collins 51J-3 receiver []

50X1

50X1

3. In a few instances these recommendations run counter to what [] requested. These recommendations also run counter to action taken in letters to the Contractor dated 13 September and 9 November 1956. A major item of this nature is the Industrial Facilities. This includes a Quonset hut, related furniture and fixtures, and a 100' tower [] At the present time there seems to be no Agency interest in maintaining these Industrial Facilities [] or in dismantling them for return to stock. To determine disposition in the best interests of the government, however, the following information is desired:

50X1

50X1

50X1

- a. Sale value to [] or other interested parties
- b. Condition of the Industrial Facilities and the suitability for dismantling
- c. Costs of dismantling the facilities and of restoring [] property and grounds

50X1

50X1

The entire problem was carefully reviewed by this Division and coordinated with the Special Projects Division and with the Office of Scientific Intelligence to make the recommendations outlined above.
